

Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.

I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

STOCK, CROP AND FARM NOTES

—Tomato growers of Nicholas report that the dry weather is playing havoc with the crop. All of the growers are going over their fields and cutting off baskets full of tomatoes which are affected with the dry rot. Nearly all of the fruit is beginning to rot just before beginning to ripen, and the condition is attributed to the dry weather.

Tobacco growers in some sections of that county say that the dry weather is having a very bad effect on the crop and that unless good rains come soon they fear that the plants will become stunted and begin to wither and bloom out prematurely. If this condition takes place it will cut the crop very short.

THE ROAD TO BALTIMORE.

It Was Over Floating Bridges In the Old, Old Days.

The road to Baltimore is over the lowest of three floating bridges which have been thrown across the Schuylkill river in the neighborhood of Philadelphia. The view on passing this river, which is about 250 yards wide, is beautiful. The banks on each side are high and for many miles above afford the most delightful situations of villas. A very elegant one, laid out in English taste, is seen on passing the river just above the bridge. Adjoining to it are public gardens and a house of entertainment with several good rooms, to which the citizens of Philadelphia resort in great numbers during the summer seasons.

The floating bridges are formed of large trees, which are placed in the water transversely and are chained together. Beams are then laid lengthways upon these and the whole boarded over to render the way convenient for passengers. On each side there is a railing. When very heavy carriages go across these bridges they sink a few inches below the surface of the water, but the passage is by no means dangerous. They are kept in an even direction across the river by means of chains and anchors in different parts and are also strongly secured on both shores. Over that part of the river where the channel lies they are so contrived that a piece can be removed to allow vessels to pass through.

A TARIFF COMEDY.

Spain Finally Won In the "Case of the Screw Propeller."

Every British captain calling at Spanish ports is familiar with the "case of the screw propeller." The story is told for the benefit of landmen in Mr. G. H. B. Ward's "The Truth About Spain." "The steel screw of a cargo steamer which traded with Bilbao and other northern ports was damaged beyond repair during a rough voyage. The vessel was beached pending the arrival of a new propeller from England.

"At last, when the steamer was about to sail, the captain was informed that he had to pay a duty for putting ashore a manufactured article—namely, the 'scrapped' or broken propeller. The captain protested and offered to drop it into the sea, but the officials were obdurate. They seized the ship and demanded payment. The captain declined to ease the tension by the customary bribe and complained to the British foreign office.

"The duty was returned, but the captain was warned to be very careful about contraband, and for several voyages nothing occurred. Several months later some slight inaccuracy in the ship's papers and the declaration of cargo gave the excisemen their chance, and the vessel was not allowed to leave until a heavy fine, corresponding to the original propeller duty, was paid."

Mount Etna.

Mount Etna is one of the great volcanoes of the earth. It is great in size, great in activity, great in beauty. In size it would cover the entire metropolitan district of New York and the surrounding counties. Its height is 11,000 feet above sea level. As to its power, one of these eruptions some centuries ago killed 80,000 people, which is probably more than Vesuvius has ever done in all its existence as a volcano, not excepting the great eruption of 79 A. D., which destroyed the cities of Herculaneum and Pompeii. As to its beauty, this is also very difficult to describe. It is teeming with life, animal and vegetable, and is snow covered one-half the year. The other half it is bare to its very summit.—Christian Herald.

The Gate to Tibet.

Just outside Tachienlu is the stone bridge which is called "the gate to Tibet." Tachienlu is a narrow little city which had to conform its shape to the contour of the mountains which shut it in. There is hardly a foot of level ground within the walls. It is the great emporium of trade between China and Tibet, where the Chinese exchange tea for musk and gold dust. Many red frocked lamas are to be seen about the city, most of whom live in large lamaseries outside the walls. On the flat roofs of the houses flutter innumerable prayer flags, giving to the winds the universal Tibetan hymn of praise.

Berlin's Big Restaurant.

Imagine a restaurant costing \$10,000,000. The Rheingold, in Berlin, accommodates more than 4,000 persons at one time, giving employment to 1,000 persons, of whom eighty-five are cooks. At this place it is possible to get a good dinner for 30 cents and at any price from that up.—Chicago Post.

FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagoner, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion, dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so

mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

Saves two Lives.

"Neither my sister nor myself might be living today, if it had not been for Dr. King's New Discovery," writes A. D. McDonald, of Fayetteville, N. C., R. P. D. No. 8, "for we both had frightful coughs that no other remedy could help. We were told my sister had consumption. She was very weak and had night sweats but your wonderful medicine completely cured us both. It's the best I ever used or heard of." For sore lungs, coughs, colds, hemorrhage, lagrippe, asthma, hay fever, croup, whooping cough, all bronchial troubles, its supreme. Trial bottle free. 50c and \$1. Guaranteed by Oberdoerfer.

A Mystification.

"I don't see why these classic dances are so fashionable," said the society editor. "They are very artistic." "Perhaps. But there is so little chance to describe what the people who give them wear."
